Dear Mr. Horton, December 9, 201

Please accept this as my official public comment on the in-river dredging permits for the Kansas River being accepted until Dec. 9, 2011. I also request a public hearing and/or public meeting on this issue.

I strongly urge the USACE to deny all thirteen sites included in the five permits and end all in-river sand and gravel dredging on the Kansas River. In addition, I strongly urge the USACE delay its decision-making process until Kansas State University researchers release an upcoming major study on the Kaw River.

Dredging has already caused significant damage to the Kaw's riverbed and banks, to habitat in and along the river, and to water quality.

Sincerely,

My address & phone: Karen I. Johnson
4950 Adams St.
Westwood, KS 66205

Dear Mr. Horton, December 9, 201

Please accept this as my official public comment on the in-river dredging permits for the Kansas River being accepted until Dec. 9, 2011. I also request a public hearing and/or public meeting on this issue.

I strongly urge the USACE to deny all thirteen sites included in the five permits and end all in-river sand and gravel dredging on the Kansas River. In addition, I strongly urge the USACE delay its decision-making process until Kansas State University researchers release an upcoming major study on the Kaw River.

Dredging has already caused significant damage to the Kaw's riverbed and banks, to habitat in and along the river, and to water quality.

Sincerely, Debra Baker

Dear Mr. Horton, December 9, 201

Please accept this as my official public comment on the in-river dredging permits for the Kansas River being accepted until Dec. 9, 2011. I also request a public hearing and/or public meeting on this issue.

I strongly urge the USACE to deny all thirteen sites included in the five permits and end all in-river sand and gravel dredging on the Kansas River. In addition, I strongly urge the USACE delay its decision-making process until Kansas State University researchers release an upcoming major study on the Kaw River.

Dredging has already caused significant damage to the Kaw's riverbed and banks, to habitat in and along the river, and to water quality.

Sincerely,

My address & phone: Skyler Rorabaugh (913)
21410 W. 50th Terrace 745-5254

I strongly urge the USACE to deny all thirteen sites included in the five permits and end all in-river sand and gravel dredging on the Kansas River. In addition, I strongly urge the USACE delay its decision-making process until Kansas State University researchers release an upcoming major study on the Kaw River.

Dredging has already caused significant damage to the Kaw's riverbed and banks, to habitat in and along the river, and to water quality.

Sincerely,

My address & phone:

Please accept this as my official public comment on the in-river dredging permits for the Kansas River being accepted until Dec. 9, 2011. I also request a public hearing and/or public meeting on this issue.

I strongly urge the USACE to deny all thirteen sites included in the five permits and end all in-river sand and gravel dredging on the Kansas River. In addition, I strongly urge the USACE delay its decision-making process until Kansas State University researchers release an upcoming major study on the Kaw River.

Dredging has already caused significant damage to the Kaw's riverbed and banks, to habitat in and along the river, and to water quality.

Sincerely, Sara Curran
