Legend

- Flood Extent
- Highways
- Streets
- Hydrographic Cross Sections

Contour Interval 10 feet.
National Geodetic vertical datum of 1929.
Source of base map: U.S. Geologic Survey 7.5 minute series.

Reach Areas on this map are defined by the Hydrographic Cross Sections at the upper and lower extents and by the Projected Flood Boundary at the lateral extents.

Note: The inundated areas shown on this map reflect events of an extremely remote nature. These results are not in any way intended to reflect upon the integrity of the Tuttle Creek Dam.
