Subject: Per BNSF Intermodal Facility near Gardner
Date: Monday, August 03, 2009 2:15:16 PM

Dear Mr. Marx,

I am aware that the Corps is considering a BNSF permit with out a full environmental impact statement. I am hoping that this will strongly be discouraged and a new Full Enviromental Impact Statement will be given by the Corps.

On a personal note. We moved our twins out of Olathe and into the this area nearly 6 years ago. They were born with complications, asthma being one. Fortunately, our move to a cleaner area has given them the quality of life they deserve. My children are happier being healthier and living in a safe and healthy environment. Of course, we were crushed to hear that the BNSF would be moving into the area, and it truly hampered our dreams of a healthy enviroment that we worked so hard to acheive. I truly put my trust in people to do the right thing, this is how I was raised. We all know the right thing is to give a Full environmental Impact Statement.

This will help some of us who need it most to be able to make the best decisions for our chidren. My children had a rocky start, have struggled through the years and have overcome a lot. The last thing I want to do is put them in another potentially unhealthy enviroment. They never asked for this - but I am asking for the right thing to be done in this situation.

I thank you in advance!
Sincerely,
Jenny Hoefing

The Corps is considering that permit without a full environmental impact statemen full environmental impact statement
