Joshua, I am a 21 year resident of Gardner, Ks. I have watched Gardner grow from a city of 5,100 people to what it is today. It is a city of good people that don't deserve the enviromental problems that I feel the intermodal will bring. Please take the time to do a full enviromental inspection of the cituation before you draw your conculusions. Gardner, Ks is the kind of town you would like to raise your family in. Help us to make the right choices for all generations to follow us. Stephen Branch
