of Engineers  
Kansas City District

REPLY TO:

DATE: 4 January 2016

CORPS OF ENGINEERS, KANSAS CITY DISTRICT  
Emergency Management Branch  
601 E. 12<sup>th</sup> St., Room 115  
Kansas City, MO 64106

*APPLICATION PERIOD EXPIRES 3 February 2016*

## REHABILITATION ASSISTANCE FOR FLOOD-DAMAGED FLOOD CONTROL PROJECTS

Public Sponsors of flood control projects that sustained damages due to flooding during the period 28 December 2015 through 3 January 2016, have until 3 February 2016 to apply for Public Law 84-99 Rehabilitation Assistance from the U.S. Army Corps of Engineers, Kansas City District. This is the official notice that a submittal deadline is in effect for the 2015 event.

The Corps of Engineers has authority under Public Law 84-99 to supplement local efforts in the repair of both Federal (Corps-constructed, locally operated and maintained) and non-Federal (constructed by non-Federal interests or by the Works Projects Administration (WPA)) flood control projects damaged by flood.

a. For a non-Federal flood control project to be eligible for Rehabilitation Assistance, it must have been inspected, evaluated, and accepted into the Corps Rehabilitation and Inspection Program (i.e. granted Active status) *prior to* the onset of the flood, and still be Active (based on the latest Continuing Eligibility Inspection) at the time of the flood.

b. For a Federal flood control project to be eligible for Rehabilitation Assistance, it must be in an Active status by having passed its last Inspection of Completed Works inspection.

c. Rehabilitation Assistance will be provided by the Corps only when the work is economically justifiable, the damage was sustained during the recent flood event, and the cost of the repairs is more than \$15,000.

d. Rehabilitation Assistance for a non-Federal project is cost shared between the Public Sponsor and the Corps of Engineers. The Public Sponsor must provide 20 percent of the cost of the Rehabilitation Assistance.

All requests for assistance made to the Corps will be coordinated with the Federal Emergency Management Agency (FEMA) and the Natural Resources Conservation Service (NRCS) to prevent duplication of benefits.

If the Public Sponsor believes that its project may qualify for Rehabilitation Assistance, a written request must be submitted to the Corps of Engineers at the address above. The request must be signed by an officer or responsible official of the Public Sponsor, and must include:

- Name and telephone number of the Public Sponsor's point of contact;
- Legal name of the flood control project;
- Date and results of the last inspection by the Corps of Engineers;
- Location of the flood control project by township, section, range, city, and county;
- Location(s) of the damaged section(s), and extent of the damage at each location; and
- Waterway causing the flood.

Under receipt of the Public Sponsor's request, the Corps of Engineers will schedule an inspection with the Public Sponsor. If you have any questions, contact the Corps of Engineers at 816-426-6320 for assistance.

Andrew D. Sexton  
Colonel, Corps of Engineers  
District Commander
