

KANSAS CITY DISTRICT SERVICES

Introduction

The Kansas City District Corps of Engineers can provide a wide range of talents, skills, and services. This folder contains information on available services and how you can obtain them.

- **Engineering**
- **Construction**
- **Contracting**
- **Operations**
- **Planning**
- **Real Estate**

A business concept

Our concept of customer service is “On the Job to serve!” At your request and direction and with you needs as our highest priority, we will respond with appropriate resources to meet those needs. We will provide you, our customer, with consistent quality, responsive and cost-effective engineering and technical support. If services outside the Kansas City District are needed, we are partners with other Corps offices and we will coordinate your requirements into a larger network of additional capabilities.

How it Works

For assistance or more information about our services, please contact one of the Project Management Offices listed below.

SERVICE	NAME	TELEPHONE	FAX
Military Projects	Rex W. Ostrander	(816) 389-3270	(816) 389-2024
