

Outlet Park Pavilion

- Use Policy -

1. The Outlet Park Pavilion is reservable by registered Outlet Park campers during the period of occupancy of the campsite. Campers will be required to show proof of occupancy by providing their reservation and/or confirmation number, with dates of occupancy, at the time they make their reservation.

Phone reservations may be accepted as long as the reservation/confirmation number, occupancy dates and name the campsite is registered under are provided. Staff will verify by checking the NRRS database.

If not reserved, the pavilion is available to campers currently registered in the Outlet Park.

2. The Outlet Park Custodian has the responsibility to check for cleanliness; however, pavilion users are also expected to clean tables and countertops and place all trash in receptacles. Please report any messes needing attention to a ranger or the Outlet Park attendants.

3. Countertops will remain uncluttered of cooking utensils and/or food storage containers when the pavilion is not being used. The Corps of Engineers is not responsible for damaged or stolen personal property left in the pavilion.

4. 10 p.m. – 6 a.m. quiet hours will be strictly enforced. Due to the close proximity of campers noise levels from pavilion users will be kept at a minimum so as to not disturb nearby campers.

5. Vehicles must park in the parking lot provided or along the edge of the road. Vehicles are not allowed to pull up to the pavilion to load or unload items.

6. The reservation time period will be from 11 am – 10 pm. The pavilion may be reserved from 1 April to 31 October. Reservations will be accepted beginning 1 January. Reservations will only be accepted at the Project Office. The reservation list will be updated as soon as new reservations are taken. A copy of the list will also be provided to the Outlet Park Attendant.

7. Reservation Fee: \$ 40.00

Capacity: 75 people

For more information contact: Melvern Project Office (785)549-3318.
