Inaugural "National Get Outdoors Day" scheduled for June 14

The American Recreation Coalition has partnered with all the Federal land-management agencies to organize the inaugural "National Get Outdoors Day" on June 14.

Melvern, Pomona and Clinton Lakes in the U.S. Army Corps of Engineers, Kansas City District, will be among NGOD host sites promoting outdoor recreation on June 14.

NGOD is designed to get Americans back in touch with nature, back in touch with our Federal lands, and out of the house and away from TV and video games.

The USDA Forest Service is the lead Federal agency. The Corps of Engineers, the National Park Service, Bureau of Land Management and the Bureau of Reclamation are participating in the event.

Many activities are being planned at various locations. For more information, contact the project offices or go to the National Get Outdoors Day Web site at:
