Mr Marx:

~~WE~~ ~~are~~ writing regarding a proposed
BNSF Intermodal rail yard in Gardner
Ks. Although we are not residents of
Gardner, our children attend educational
programs in Gardner, and we shop in the
area. We also love Hillsdale Lake for its
recreational opportunities and we are
very alarmed ~~at~~ to hear that the Corps
is considering issuing a 404 permit, without
first requiring a Full Environmental
Impact Statement!

We believe that ~~the~~ the proposed
intermodal will harm ~~for~~ make this
area less suitable for the uses that
our family currently enjoys. Please
require a full EIS to assess all potential
effects from the Intermodal & related activities
that may impact air quality, water quality
& any possible impacts from the increased
(over)

traffic - especially truck traffic with its
exhaust.

Thank you,

Jo Ann Famb
