OPTIONAL ADDITIONAL INFORMATION SUPPORTING NJD (e.g., discussion may include information reviewed to assess potential navigation or interstate commerce connections - 1 to 3 paragraphs):

The isolated wetland is about 0.06 acres in size. It is a seep on the side of a hill that does not have a overland flow connection to a stream and is not located in an alluvial floodplain. Due to the limited size of this wetland it appears to have no interstate commerce value. The applicant will excavate this site for a livestock pond.
