NOTES:
Horizontal Coordinate System:
World Geodetic System of 1984 (WGS84), projected to the Universal Transverse Mercator (UTM) Zone 15 North.
Distance units in U.S. Survey Feet

Vertical Datum:
Soundings are shown in feet and indicated depths are referenced to water surface at time of collection.

The information depicted on this map represents the results of a survey conducted on the date indicated and can only be considered to represent the general condition existing at that time.

The location of navigation aids are based on and provided by the U.S. Coast Guard.

US Army Corps of Engineers
District: CENWK

DISCLAIMER
Access Constraints: The US Navigation Charts are distributed on behalf of the Department of Commerce, NOAA, Office of Coast Survey. The Government makes no warranties, understanding that the US Government makes no warranties, expressed or implied, concerning the accuracy, reliability, or suitability of the charts, their fitness for any particular purpose, and their freedom from patent infringement. The Government shall be under no liability whatsoever to any person by reason of any use made thereof. The charts are not to be used for navigation. By receipt or use of the charts, the recipient fully agrees not to make any claim against the Government for damages resulting from the recipient's use or misuse of the charts. The recipient agrees to hold the Government harmless for any claims which may arise from the recipient's use or redistribution of the charts to others without also transferring this Disclaimer.

Distribution Liability: The data may assess the results of data collection processes using for a specific US Army Corps of Engineers purpose under specific environmental conditions. As such, it is only valid for its intended use in context, time and purpose for which it was collected. The US Army Corps of Engineers is not liable for any of the applications of the data for other than its intended purpose.
