

U.S. Army Corps of Engineers

PUBLIC NOTICE

WHAT: **Whiteman Communication Transmitter Site**
Proposed Selected Response Action

WHEN: **Tuesday August 10, 2021 6:00 PM**

WHERE: **Trails Regional Library**
Knob Noster Branch
202 N Adams Ave
Knob Noster, MO 65336

The U.S. Army Corps of Engineers (USACE) Kansas City District and the Missouri Department of Natural Resources (MDNR) will be holding a Public Meeting to discuss the **Proposed Action Plan** for Selected Areas of Concern (AOC) for the Whiteman Communication Transmitter Site.

USACE and MDNR evaluated all data for environmental samples collected at the Selected Areas of Concern and Areas of Interest and selected the approach of in-situ treatment of groundwater within the portion of the plume with highest contaminant concentrations, coupled with institutional controls, and monitored natural attenuation. Pre-design investigations may include refinements of the plume extent and of bedrock fracture patterns to discern their ability to optimize treatment. Possible amendments to inject include chemical oxidizers, chemical reducers, and bio-stimulation amendments--also to be selected during remedial design.

The public comment period on this determination will run from **July 26, 2021, 2021 through August 27, 2021**. USACE will not make a final decision until after the Public Comment period has closed.

The public is invited to attend the virtual Webex meeting scheduled for August 10, 2021 at 6:00 PM and to send written or emailed comments postmarked/sent by August 27, 2021 on the Proposed Action Plan to:

United States Army Corps of Engineers
ATTN: Justin Shoemaker
