Perry Lake Archery Hunt 2022 Rules/Information of the Hunt

1. Archery hunting is allowed by permit only in Longview Park, Rock Creek Park, Slough Creek Park, and the Radio Tower Area (Unit 9). **The application deadline for this hunt is 4:00PM on Friday, September 16th, 2022.** Applications can be mailed to Perry Lake Army Corps of Engineers, 10419 Perry Park Drive, Perry, Kansas 66073, ATTN: Ranger Henson. Applications may also be hand delivered to the Perry Lake Project Office Mon-Fri from 7:30AM to 4:00PM or emailed to wesley.j.henson@usace.army.mil. **Each application must list a primary hunter and a “buddy” hunter to participate in the hunt. Hunters can only be listed on one application.**
2. Hunters must also indicate on application whether they are interested in being considered as an alternate/replacement hunter. This option allows the hunter to be contacted to fill open slots in hunting units if unsuccessful during initial drawing. Replacements will also be selected by lottery. Zone assignments for replacements will be determined depending on open zones and coordination with replacement hunter(s). **Selecting of alternate/replacement hunters will be conducted at the sole discretion of USACE Ranger Staff.**
3. Permits will be issued through a lottery drawing on the afternoon of **Saturday, September 24th, 2022**; applicants will be notified by telephone and email if they are selected and the drawing will also be broad-casted on Facebook live. The issued permit must be carried by permittee and the designated “buddy” at all times and may be revoked by Corps of Engineers officials, Kansas Wildlife and Parks officials, and Jefferson County Sheriff’s officials at any time.
4. **The primary permit holder OR his or her “buddy” will be required to attend a pre-hunt mandatory meeting on Friday, September 30th, 2022 at 5:00 pm** at the Corps of Engineers Information Center at Perry Lake. If the permit holder or his/her “buddy” fails to attend the meeting, the permit will be revoked and given to the first successfully drawn alternate/replacement hunter.
5. This is an archery equipment only hunt. **The harvesting of a doe is mandatory before harvesting a buck. Instructions for verification of this requirement will be discussed at mandatory pre-hunt meeting.** Both hunters must have an Archery Either-Species/Either-Sex Deer Permit or an Any-Season White-tailed Deer permit. This hunt is intended for deer management, but turkey harvesting will be permitted with valid permit during the regular turkey season.
6. All State of Kansas game quotas and laws apply. **Hunters must show proof of state archery and hunting license and tag at the mandatory meeting.**
7. Archery deer hunting will be permitted in assigned areas from as early as **October 1st, 2022 (depending on unit drawn) through December 31st, 2022.**
8. ***Hunters will be allowed to hunt in their assigned zone/area only;*** at no time will hunting be allowed outside of the assigned zone. Only the assigned permittee and his/her “buddy” will be allowed to hunt. (This does not apply to areas open to the general public for hunting around Perry Lake, or approved leftover/alternate permits issued by USACE.)

9. Parking and vehicle operation will be permitted in designated areas only, and the issued parking permit must be displayed.
10. Hunting stands and blinds must be portable only. No screw-in steps are allowed. Minor pruning (less than 2" diameter) is permitted to create a clear shooting window. Blinds/Stands must be tagged with name, address, phone number, or KDWPT ID # at ground level, with a durable method of attachment. Blinds and stands must be removed **NO LATER THAN JANUARY 15th, 2023.**
11. Shots resulting in deer injury will need to be trailed; however, if the need arises to trail onto private property it is the responsibility of the hunter to obtain permission before doing so.
12. Hunters will be required to submit a post-hunt form indicating the number of deer killed of each sex. These forms help us determine hunt success and will be issued at the pre-hunt meeting. **If reports are not returned by January 15th, 2023, fifteen days after the final day of the hunt, then hunters may be excluded from future hunts.**
13. Permit holders violating these conditions or any state & Corps of Engineers (COE) rule, regulation, or law will have their COE permit voided, be subject to a citation, and be banned from future special hunts at Perry Lake. Any person-to-person conflicts must be reported to the appropriate officials.
14. Mountain bikes and boat usage are approved for access to hunting units. **NO ATV'S.**
